

Accessibility Statement

This accessibility statement applies to the ADAMftd website, which is designed for use on tablets, laptops, and PCs. ADAMftd does not currently support mobile phone use. We are committed to making our website accessible to everyone, ensuring it provides a universally accessible user experience.

Current State of Accessibility on ADAMftd

At ADAMftd, we strive to comply with the Web Content Accessibility Guidelines (WCAG) 2.1. These guidelines explain how to make web content more accessible to people with disabilities and are structured into three levels of conformance: Level A, Level AA, and Level AAA. ADAMftd is currently conformant with WCAG 2.1 Level AA, with ongoing efforts to achieve and maintain Level AAA conformance.

Non-accessible Content & Recent Improvements

While we have made significant strides in enhancing accessibility, some older sections of our website may still not fully meet Level AAA standards. Recent improvements include:

- **Enhanced Keyboard Navigation:** Improved the website's navigability using keyboard-only operations, making it more accessible for users who do not use a mouse.
- **Color Contrast Adjustments:** Increased color contrast across the website to improve readability and visibility for users with visual impairments.
- **Text Scaling:** Implemented features that ensure text can be resized without loss of content or functionality, catering to users who require larger fonts.

Ongoing Efforts to Improve Accessibility

Our commitment to accessibility is ongoing. We continually integrate accessibility into our development process to ensure that all new and updated web content, as well as the website's features, are accessible to all users, including those with disabilities. This includes:

- **Regular Accessibility Audits:** Conducting frequent reviews of our website to identify and fix accessibility issues.
- **Training and Awareness:** Ensuring our development team is trained on the latest accessibility standards and best practices.
- **Inclusive Design:** Employing inclusive design principles to accommodate a diverse range of human abilities and needs.

Feedback and Contact Information

If you require any of our website content in an alternative format, or if you have suggestions on how we can improve accessibility, please contact us [online](#) or via email to support@adamftd.com

We welcome your feedback and encourage you to report any accessibility issues you encounter. Your feedback is crucial in helping us improve our service.

Document Ownership and Approval

This document is owned and maintained by the ADAMftd Accessibility Team. It is regularly reviewed and updated to reflect the ongoing changes and improvements in our accessibility practices.
